Who is the Insurer?

Lloyd's is the worlds best known, but probably least understood insurance brand. This is because Lloyd's is not an insurance company but a society of members, both corporate and individual, who underwrite in syndicates on whose behalf professional underwriters accept risk. The risks posed to insurers arise from brokers and intermediaries worldwide. Together, the underwriting syndicates at Lloyd's are one of the largest commercial insurers in the world and a leading re-insurer. The market struc-

ture encourages innovation, speed and better value, making it attractive to policyholders and participants alike. Lloyd's covers the most complex and specialized risks in the world, from oilrigs to celebrity body parts, from major airlines to the world's biggest banks and sporting events. Insurance is determined by its members, who provide the financial support which acts as collateral to ensure that the policyholder's claims are paid promptly.

An International Health Insurance Plan for Persons 50 to 85 Years of Age

The Silver Medical Plan is the health insurance plan that provides coverage for persons who have reached the age of maturity (50 to 85) and who deserve most to be duly protected and safe.

A serious study of the health insurance market shows that in most countries when persons reach age 65 years of age, and 70 in others, they LOSE the right to be insured. This constitutes a tremendous injustice. At Morgan-White Administrators International, Inc, we believe it a duty and an honor to contribute to the protection of these distinguished citizens, by providing health insurance coverage insured by Lloyd's through the Worldwide Medical Trust.
